

PUBLIC NOTICE

PEMBINA VALLEY WATER COOPERATIVE PRECAUTIONARY BOIL WATER ADVISORY - MAINTENANCE

Maintenance to the water system for a water leak on Pembina Valley Water Cooperative's line will lead to the issue of a Precautionary Boil Water Advisory. It is possible that regular maintenance can compromise the safety of the water supply. A precautionary boil water advisory is being issued starting immediately on September 5th, 2019 to ensure the protection of public health.

Location: Sperling, MB – Elevator Street and Charles Street

Date and Time: Start – Thursday September 5th, 2019 End - To be determined

RECOMMENDATIONS

Water is safe to use as per usual, however it is recommended to boil water prior to use for drinking.

All water should be brought to a rolling boil for at least one minute before it is used for:

- **Drinking and ice making**
- **Preparing beverages, such as infant formula**
- **Preparing food**
- **Brushing teeth**

It is not necessary to boil tap water used for other household purposes, such as laundry or washing dishes. Adult and older children that are able to avoid swallowing the water can wash, bathe, or shower. Young children should be sponge bathed. If boiling is not feasible, an alternate and safe supply of water should be used.

• where agriculture and industry meet •

To avoid burn injuries from hot water, cautions should be taken. Please keep young children away from boiled water, and place kettles and pots away from counters and stove edges.

Additional information can be found on the Boil Water Advisory fact sheets to follow.

We will post any notices and updates to our Facebook, Twitter and website (www.rmofmorris.ca) under events.

Results are expected tomorrow (September 6th, 2019), Precautionary Boil Water Advisory is expected to be lifted at that time

Please call our office at 204-746-7300 with any questions you may have.
